## Call for tenders for the recruitment of a Biathlon Coach

In the Vosges (North East from France)

From December 1<sup>st</sup>, 2023

### **Main tasks :**

Help the biathlon athletes, who have been selected for regional teams to progress to the highest level. Also create an environment around the athletes that is favourable and necessary to achieving this objective.

To program, plan and supervise the training sessions of the boys' and girls' biathletes in the regional group.

Accompany the groups for which he/she is responsible on training courses and national-level competitions.

Manage and maintain the activity's equipment.

Preparing evaluations of the athletes.

### **Specific skills required :**

Technical skills in biathlon - Nordic ski diploma.

Skills in technical analysis, programming and methodology of training and competition periods, evaluation of acquired knowledge and monitoring of athletes' optimum development.

Ability to ensure the best human relations with athletes and their families, as well as with club officials and management structures (departmental and regional committees).

Computer skills.

Comply with the sporting instructions and guidelines issued by the President of the regional committee and the Chairman of the Biathlon Commission.

### **Occasional tasks :**

Taking part in and representing the regional Biathlon Commission at FFS technical meetings specifically for biathlon.

Advise and support the development actions implemented by the Biathlon Commission

Set up biathlon promotional activities.

A training plan may be proposed by the association to enable the required skills and competencies to be developed.

## **Conditions of employment**

Full-time permanent position (35 hours per week annualised), technician group 3 of the national collective agreement for sport.
